

Price List 023.

VER. 01

Wakeparks equipment powered by Techramps Group.

 **WAKEPRO**

Specs.

This price list cancels and replaces all previous price lists and package content lists for WAKEPRO.eu products. It is valid until further notice. WAKEPRO reserves the right to change prices to cope with inflation, material price fluctuations, and market conditions. Applicable taxes, shipping, installation and all other costs are NOT included.

Technology

All the products are manufactured by plastic extrusion welding technology, without using steel frames.

CNC Cutting

A rich machine park, including three CNC plotters, allows to manufacture our products with surgical precision.

CAD designing

Advanced design process based on the analysis of buoyancy and forces acting on the device.

Core

Styrofoam with increased resistance to stress.

Main Material

High density polyethylene (HDPE), UV protected – manufactured on request by industry leader – German company Roechling.

Techramps Group

Wakepro is a part of the Techramps group, which manufactures various types of sport facilities products. If You are looking for skatepark, pumptrack, street workout, parkour park, wave ramps or snowpark, You can get them from one supplier and from one place.

Info.

This price list cancels and replaces all previous price lists and package content lists for WAKEPRO.eu products. It is valid until further notice. WAKEPRO reserves the right to change prices to cope with inflation, material price fluctuations, and market conditions. Applicable taxes, shipping, installation and all other costs are NOT included.

High quality

The main product material is HDPE from one of the industry leaders - the German company ROECHLING. All the products are manufactured by qualified staff with official professional certificates.

Modular

The elements consist of modules, making transport and assembly easier. In addition, some features can be combined with each other to get more advanced setup.

Community

We collect feedback from the community aimed at matching our products to the riders expectations.

Experience

8 years of experience in the production of wakepark features, translates into more than 200 obstacles made till year 2019.

- 20 years of experience in the construction of sports facilities as the techrampsgroup.com
- More than 200 wakepark features manufactured since 2012
- More than 1000 sport facilities built as techrampsgroup.com, since 1999

Warranty

All the products are covered with 5 years warranty.

Kickers.

This price list cancels and replaces all previous price lists and package content lists for WAKEPRO.eu products. It is valid until further notice. About

Extreme sports were always my passion, skateboarding since kiddo later snowboarding and kitesurfing after that in 2013 I have started wakeboarding. My home spot was Wake Up Silesia, the best 2.0 cablepark in Poland. Quickly I have fallen in love with this sport and wakeboarding became my main summer activity. Now I represent X-Wake Wakeboarding company where I am a brand manager and a team captain. I succeed to connect work with passion which makes me very happy and allows me to go bigger in wakeboarding. These days my favorite spots are Wake Zone Stawiki, Rueda wake park, and Central Wake Park. Those are the best cables in Poland which are really worth visiting. I am very happy that I am in Wakepro family, where the best people are connected by passion to wakeboarding. Wakeboarding is getting more and more popular with every year. That gave us great opportunity to grow and make progress as never before. I am glad that I am in wakepro family, thanks to that I am able to create my signature obstacles for wakeparks, support growth of wakeboarding and share my passion with others.

About

My wakeboard adventure started when I was working at Krakow Wakepark. At the beginning it was a simple admiration for tricks done on the edges as they were pretty spectacular. Almost everyone struggled with learning rails on a full size cable, which would end up mostly with a lot of laugh. Later on, thanks to cooperation between Wakepro and Wakepark, more and more obstacles became available which opened up a whole new range of ways to work on wakeboarding skills.

By the time bigger cableways like Rueda Wakepark or Wake Zone Stawiki were open, I was already so much into wakeboarding that with new places to explore my passion was constantly growing. It didn't take long to start working as a rider for some companies, including Wakepro. Those relations gave me possibilities to travel and spend time on wakeboarding while doing what was my true passion. Wakeboarding is constantly growing and there are new places opening up.

Competitions between parks leads to bigger variety of obstacles and for the riders, this means even more fun.

It is a huge motivation for me to pick up the new challenges on the water and out of it :) See ya on the water!👋

Thomas Girel.

Because the passion makes you a pro

About

My name is Thomas, I'm 27 years old, it's been approximatively 10 years that I'm on a wakeboard, before that, skateboard, surfboard, I have always been on a board... I started wakeboarding late, because it was too expensive to ride behind a boat, so when a cable opened near my home, I was so happy to go there to ride. I've been there a lot, and I've been working there too. Anyway, today I'm so happy to represent Soörüz and DUP wake. Those brands are really professional and serious. Today, I ride in a TNG cablepark, it's a really good place in France. The team there is exceptional, a lot of motivation and big wakeboarding level! My favorite support is definitely the cable but I like doing winch, specially during these times in quarantine ;-)

This year, I'm so excited to work with a new brand obstacles builder, Wakepro. It's an opportunity for me to share my obstacles project. I work a lot on it, and it could be insane to ride my own obstacles !

On board

Patryk Łojek.

Because the passion makes you a pro

About

I started my adventure with wakeboarding in 2013. At the beginning it was fun because I was only six years old.

Last four years I have been training regularly under my father trainer's eye.

Thanks to wakeboard I meet a lot of cool places and people.

My involvement in trainings and successful competitions led me to the first place in the IWWF world ranking in the U15 category.

Apart from wakeboarding I love skateboarding and snowboarding.

On board

Bobby Carne.

Because the passion makes you a pro

About

I started riding in 2004 when I was 5 yo behind the family wakeboard boat, then I moved to France in 2008 and got super lucky that TNG opened 5 minutes from my house in 2010. That's when I began to ride cable all the time.

On board

Since 2004,

Sponsors

Hyperlite wakeboards, ION, BRO! Clothing and Wakepro

Favorite terrain / wakepark

My training grounds remains TNG, but I love to mix it up and visit as many different wake parks as possible.

Hervé Puyol

Because the passion makes you a pro

About

My name is Herve. I am 28 years old. I have been on a wake since six years. Luckily I have met the people who allowed me to be where I am today at Zion (Wakeparkizon) my playground with endless possibilities to develop my level and my passion ! So I am proud to ride for Sooruz an eco responsible French brand, Double up, CBD dolls, Nice side and now for an obstacle builder. I can't wait to get up and see my pro model in my paradise dream come true
